

Architectural Grade LED Drivers

LTF's UniDriver Series LED power supplies have simplified driver selection for OEMs. Models from 6-96W feature Universal Input voltage (120V-277V AC), All in One Dimming (ELV, Triac, 0-10V), and are Title 24 Compliant. All backed by 5, 7 or 10 year warranty options.

Samsung Spectrum Engineering

In addition to delivering the industry-leading visual effects of light, Samsung's spectrum engineering creates specialized spectrum to supply non-visually effective light sources for people and things. For more details, visit Samsung at Booth 1435, LIGHTFAIR 2019 from May 21st to 23rd.

SunLike Natural Spectrum LEDs

SunLike Series natural spectrum LEDs produce light that closely matches the spectrum of natural sunlight to deliver a healthier light experience by minimizing potential negative effects of artificial light. SunLike Series LEDs accurately render objects in natural light, making them ideal for lighting designers to create human-centric, nature-based light sources.

LUXEON Fusion from Lumileds

Lumileds has launched LUXEON Fusion, a breakthrough platform technology that delivers unprecedented white color selection while streamlining fixture manufacturing. Lighting manufacturers can now leverage LUXEON Fusion, which unites white color selection, dim to warm capability, and dynamically tunable white lighting—all designed for mass adoption, in one single solution.

ADURA Round Victoria Module 12481-A

ADURA offers new high efficiency low cost Round LED Modules for General Lighting using MCPCB for better thermal. CCT offering of 2000K-6500K, and CRI options of 70+, 80+, 90+. Each modules produces up to

OSLO – Software for Optical Design

OSLO is a powerful yet affordable optical design program with the features needed to meet today's demanding optical requirements. OSLO combines advanced ray tracing, analysis, and optimization methods with a high-speed macro

20,000 lumens typically at 4000K/80 CRI.

Higher Outputs thru LED Diffusers

Plexiglas® Diffuse™ Ultra™ acrylic resin enables ≈20% higher output and comparable hiding to lenses made using white pigments. Part consolidation and further efficiencies may be gained by co-extruding lens/reflector profiles in combination with Plexiglas® Reflect™ resin (>98% reflection). Only Altuglas offers these patent pending technologies.
